

If the federal Do Not Call Law is less restrictive than the NJ Law then change the Federal Act to equal or exceed the NJ Law in strictness.

My telephone is my telephone(I pay the bill not the caller)and I did not connect it so that folks I do not know nor care a damn about can call me for stupid stuff.

I am certain that if I came into your home at all odd hours uninvited you might get VERY upset and maybe take some physical action against me.

Let's keep things as reasonable and as private as they can be in this BIG BROTHER is watching environment of post 9-11.

Uncle Sam can watch me all day every day, I love the invasion, but Joe Blow from XYZ Medical selling me sex meds etc ,can jolly well stay out.
